GOLD COIN FOR EXPORT

HEAVY SHIPMENT HAS NO EFFECT ON NEW YORK STOCKS.

Money Market Unchanged-Big Advance in Panhandle-Slight Deeline in Volume of Local Trade.

At New York, yesterday, money on call was steady at 5@6 per cent; last loan 5

per cent. Prime mercantile paper, 51/2@6 per cent. Sterling exchange was easier, with actual business in bankers' bills at \$4.87% for demand and \$4.84%@4.84% for sixty days; posted rates, \$4.821/4 and \$4.881/4; commercial bills,

Silver certificates were 59@59%c; bar silver was 59%c; Mexican dollars were 47%c. Bar silver, at London, was steady at 271/4d

The strength manifested by the New York stock market in face of the engagements of gold for export by to-day's steamers was the feature of the day. There was considerable hesitation and some reaction in the early dealings, on the recurrence of fears over the effects of gold shipments. Thursday's recovery in stocks, it will be remembered, was based on the hopes that gold exports had been averted for the time being. The fact that apprehension over this devlopment was still apparent yesterday morning, made the strong advance in prices in the very face of the news of the

gold exports all the more striking. The sterling exchange rate not only failed to recover, but declined an additional fraction, to \$4.87% for demand. The shipment of gold at this level for exchange demonstrates Trade Less Active Except in Holiday that some considerable advantage is offered by the Bank of England as an inducement for the shipment. It is known, in fact, that the English institution allows interest to the shippers for the period of the transit. It has also advanced the buying price of gold, both for American eagles and for bar old. For the former, the price has been dvanced one penny an ounce in two days. The transaction may therefore be regarded, in a certain sense, as a special one. Whether it was for this reason that the local stock market took small account of the beginning of the export movement, is a subject for surmise. The reported engage-ment of \$1,750,000 in gold for export caused no stiffening of the local money rate, which ruled from 5 to 6 per cent. all day. The incidents of the day which served to offset the gold exports were several. In the first place, the conviction that to-day's bank statement would make a strong showing, the week's losses to the subtreasury, which foot up \$4,739,000, having been, so far, offset by the receipts of currency from the in-terior and of gold from Caanda; so the banks' net losses in cash are figured at less than \$1,500,000. To-day's gold shipments, of course, do not figure. The week's extensive liquidation in the stock market, with its consequent reductions in loans, is certain to have more than offset its comparatively slight decrease in cash. A rise in the surplus reserves of the banks is therefore beleved to be well assured. The arrival from Cuba of a United States transport brings an addition to the available supply of specie of \$1,250,000, assigned to a trust company, and of over \$100,000 of postoffice funds. The absence of a disturbance of the local money market by the withdrawals of gold and the favorable effect produced on the London market arouse hope that the operation may prove beneficial to the financial world at arge, in sufficient degree to offset any local convenience. A favorable effect was produced on the stock market by the buoyant tone in the Boston market, arguing a satisfactory settlement of the difficulties threatening that market. Substantial gains in

of the day's trading. A late advance of 13% in the price of Pittsburg C., C., & St. L. was a feature of the day. Price changes in bonds were somewhat and were, I the most part, nar row. Total sales, at par value, were \$1.805,-000. United States new fours declined 4c, and the fives advanced 1/4c in the bid price. Following are the day's share sales and the closing bid prices:

This is a dark picture of the church four hunhaving kept the ordinances and wearing mournmakes a record of those who fear Him and think upon His name. In the day of final accounting He will esteem them as His portion. In that day it will be clearly seen that there is a difference between the good and the evil. A day of wrath is in store for the wicked. Their destruction shall be as complete as the burning of the chaff or the brush-heap. But to the "church within the church" the Lord's coming will be like the sunrise. Wheat Steady at a Lower Range on Forecasts of the Government Report-Corn and Oats Weaker.

CHICAGO, Dec. 15.-The wheat market to day weakened on the expectation of a under yesterday. May corn closed 1/3c and May oats a shade down. Provisions, supported by a light hog movement and an excellent demand, were strong, May pork closing 30c, May lard 121/2@15c and May

Provisions were emphatically strong, sen-

timent was decidedly bullish and the market was active throughout. Opening figures were over yesterday's close, the hog supply being light and prices at the yards firm. With the price up there was an excellent demand, commission houses coming into the pit with good outside orders. Speculators bought with evident confidence in even better figures later on. Packers were not overanxious to take profits, and as the session progressed bidders steadily advanced their figures. The profit-taking at one time checked the advance temporarily, but the close was very near the top. May pork ranged from \$10.35 to \$10.621/2 and closed 30c over yesterday at \$10.60; May lard from \$5.65 to \$5.80, closing 124@15c up at \$5.771/2: May ribs from \$5.45@5.471/2 to \$5.60, with the final prices 15c higher at \$5.60. Wheat was dull and heavy, there being a general disposition to await the government crop report, which was not due until after dealing hours. The market was

strong on light Northwest receipts, and May opened at 69%@69%c. Buyers were chary, however, expecting the government report to be rather bearish, and the mar-Steel cut nails, \$2; wire nails, from store, \$3.25 | ket eased off, May touching 69%c. A slight lowed, but the close was at the put figure, New York reported twenty-five loads taken | Western, 20c; Southern, 18c. Cheese firm but for export. Atlantic port clearances in | quiet wheat and flour were equal to 247,000 bushels. Primary receipts were 459,000 bushels, against 1,204,700 a year ago. Minneapolis and Duluth reported 385 cars, compared with 370 last week and 945 a year ago. Local receipts were sixty-five cars, one of contract grade. The flour news was not encouraging to holders of wheat, and it was taken for granted that the government figures would show a crop around 550,000,000 bushels, which is about 50,000,000 over the

> crop suggested in September. Corn was a bit easier on freer country offerings and better weather for the movement. The strength of provisions, however, had a steadying effect, and the market sustained only a slight loss, closing steady. May opened unchanged, but dropped on profit-taking, losing 40%c from initial figures. The market was dull, making a languid effort to brace up in sympathy with wheat, but gaining only fractionally from the bottom. Receipts were light, 188 cars here. The demand was small. May sold from 33%c to 33c, closing %c down at The oats market was stagnant and lifeless, and such slight motions as it made

Government Crop Report.

WASHINGTON, Dec. 15.-The statistician of the Department of Agriculture reports the wheat crop of the United States for 1899 at 547,300,000 bushels, or 12.3 bushels per acre. The production of winter wheat is placed at 291,700,000 bushels, and that of spring wheat at 255,600,000 bushels. Every important wheat-growing State has been visited by special agents of the department, and the report of changes in acreage is the seeded area of winter wheat is estimated at 30,150,000 acres, which is about 200,000 acres greater than that sown in the fall of 1898. The sowing of wheat is still going on in California and some of the Southern States, and the foregoing estimaté is subject to correction. The average condition is 97 1. The acreage sown with winter rye is estimated at .7 per cent. less than that of last year. The average of condition is 98.2 per

The compilation of the annual returns from individual farmers is approaching completion. Any slight changes that may be called for in the average yield per acre of corn, oats, barley and other crops as published Oct. 10 will be made at an early date, and the final figures will then be

Dec. 15.—Cattle—Reccipts, 1,250; shipments, 500. With continued liberal receipts the cattle market opened quiet and the first indications favored rather lower prices for all kinds. Later, however, with a good demand from order buyers export steers sold on a basis of about steady prices compared with the recent decline. Common stock cattle here very plentiful, the demand was limited, and at a late hour quite a number had not changed hands.
